

Acknowledgements

The research would not have been possible without the efforts of many people. My warm appreciation to my supervisor

***Dr. ABD ALRASOOL GABAR ELZEBIDY** for his unlimited support and assistance.*

I would like to thanks the Electrical and Electronic Engineering departments for their cooperation. Also, thanks to all those who have made a contribution, or a suggestion and have helped in one way or another, large or small.

*Finally special personal thanks to my **Mother** for her tremendous significant support.*
