
BY
Mohammed Bashir Abdalwahid

A Thesis Submitted in Partial Fulfillment of the Requirements for the Degree of Master of Science in Communications Engineering to Electronics Engineering Department of College of Engineering

Supervisor
Dr. Fath Elrahman Ismael Khalifa
بسم الله الرحمن الرحيم

ورَّبَ أَمِلَوْا فَسَسَيِّرَى اللَّهُ عَمَلَكُمْ وَرَسُولَهُ وَالْمُؤْمِنُونَ وَسُلَّمْنَآ إِلَى عَالَمِ الْغَيْبِ وَالْشَّهَادَةِ فَيِبَسْكُمْ يَمَا كُنتُمْ تَعَمَّلُونَ

سُورَةُ التَّوَبَةِ (آية 105)
CHAPTER ONE

Introduction
CHAPTER TWO

Literature Review
CHAPTER THREE
System Design and Simulation

CHAPTER
FOUR

Result and Discussion
FIVE

Conclusion and Recommendations

Appendices
