

## **List of Tables**

Table 2.1	Average restricted stopping power ratio of water to the air, $S_{water, air}$ , for different photon spectra in the range from $^{60}\text{Co}$ rays to 35 MV X rays.....	21
Table 2.2	Reference conditions for the determination of the photon beam Quality ( $\text{TPR}_{20, 10}$ ) .....	28
Table 4.1	Wedge factors for square different field sizes and different wedge angles....	68
Table 4.2	Spectral distribution data for the wedges with different angles.....	68
Table 4.3	Back scatter factor for Square field sizes.....	69
Table 4.4	Output factors for different square fields.....	69
Table 4.5	Calculated and measured dose at central axis points for 6 MV photon beam energy, 207 Monitor Unit (MU), and open field.....	71
Table 4.6	Calculated and measured dose at central axis points for 6 MV photon beam energy, 265 Monitor Unit (MU), and 15° wedge-In.....	72
Table 4.7	Calculated and measured dose at central axis points for 6 MV photon beam energy, 265 MU, and 15° wedge-out.....	73
Table 4.8	Calculated and measured dose at central axis points for 6 MV photon beam energy, 265 MU, and 15° wedge-right.....	74
Table 4.9	Calculated and measured dose at central axis points for 6 MV photon beam energy, 265 M), and 15° wedge-left.....	75
Table 4.10	Calculated and measured dose at central axis points for 6 MV photon beam energy, 327 MU, and 30° wedge –In.....	76

Table 4.11	Calculated and measured dose at central axis points for 6 MV photon beam energy, 327 MU, 30° wedge –Out.....	77
Table 4.12	Calculated and measured dose at central axis points for 6 MV photon beam energy, 327 MU, 30° wedge –Right.....	78
Table 4.13	Calculated and measured dose at central axis points for 6 MV photon beam energy, 429 MU, 30 <sup>a</sup> wedge .Left.....	79
Table 4.14	Calculated and measured dose at central axis points for 6 MV photon beam energy, 429 MU, 45° wedge –In.....	80
Table 4.15	Calculated and measured dose at central axis points for 6 MV photon beam energy, 429 MU, 45° wedge –Out.....	81
Table 4.16	Calculated and measured dose at central axis points for 6 MV photon beam energy, 429 MU, 45° wedge –Right.....	82
Table 4.17	Calculated and measured dose at central axis points for 6 MV photon beam energy, 429 MU, 45° wedge –Left.....	83
Table 4.18	Calculated and measured dose at the off axis points for 6 MV photon beam energy, 266 MU, 15 ° wedge –Right.....	84
Table 4.19	Calculated and measured dose at the off axis points for 6 MV photon beam energy, 327 MU, 30° wedge –Right.....	85
Table 4.20	Calculated and measured dose at the off axis points for 6 MV photon beam energy, 429 MU, 45° wedge –Right.....	86
