

## **Dedication**

I dedicate to my dear mother ,and my dear father ,  
convicted you for all this, all my brothers, I dedicate this  
research, my teachers, my colleagues comrades the trail, and  
all those who loved me honestly, and I love them equally.

# Acknowledgement

*Thanks first to Allah, and especially thank supervisor of this research Dr. mahmuod hamid, and thanks go to the family that did not skimp me something to complete this work, and thank my husband .Thanks to my friend ASYA GAMAR and my families, and also Thanks to the teacher Osman, Thanks also for each of the financially or cognitively contributed to the completion of this research modest.*

## **Abstract**

In this research was studied the effect of ultraviolet radiation on skin on skin cells, also the natural and artificial sources of ultraviolet radiation was studied at the end of this research that the exposure to ultraviolet radiation cause the damage of the skin cancer was obtained.

## الملخص

في هذالبحث دُرست تأثير الأشعه فوق البنفسجيه علي خلايا الجلد، ودُرست ايضاً مصادر الأشعه فوق البنفسجيه الطبيعيه والصناعيه، وتوصلت في نهاية البحث أن التعرض إليها يسبب سرطان الجلد.
