Chapter One

Introduction

- Project definition.
- The Purpose of the Project.
- Objectives of the Project.
- Reasons for choosing the Project.
- Aspects of the Project.
Chapter Two

Data Collection

- Project Information.
- Case Study.
Chapter Three

Project Analysis

- Functions Analysis.
- Site Study.
Chapter Four

Architectural Design

- Design philosophy.
- Design Concept.
- Design Developing Stages.
Chapter Five

Technical Solutions

- Structural System.
- Treatments and Finishing.
- Services (Infrastructure).
