

LIST OF FIGURES

Pag e	Title	NO
No		
5	Rainfall and potential evapotranspiration	1
9	The arrangement of color chips of 10YR hue	2
12	.Texture triangle	3
16	.Infiltration Rates	4
30	Stage and parallel approach to land evaluation	5
31	Auger Used to small observations	6
32	Location Map of Peoples' Cooperative Project Farm	7
34	Sites of Auger and Profile Soil Observations	8
35	Collection of Soil Samples	9
36	PH Meter	10
36	Calcimeter	11
36	.EC Meter	12
37	Flame photometer	13
37	Centrifuge	14
38	Spectrophotometer	15
41	Soil Map Unit	16
44	Land Suitability Map	17

List of Figure for appendices

55	morphology of profile NO 01	18
57	morphology of profile NO 02	19
59	morphology of profile NO 03	20
61	morphology of profile NO 04	21
63	morphology of profile NO 05	22

:LIST OF TABLES

Pag e	Name of tables
----------	----------------

No		
15	relationship between texture, structure and Hydraulic conductivity	1
15	Classification of hydraulic conductivity values	2
18	:Salt affected soil definition	3
19	Salinity and sodicity limits for Land Suitability Classes	4
24	Reference Groups	5
26	:Structure of the suitability classification	6
26	:Land Suitability Orders	7
27	:Land Suitability Classes	8
39	.Summary of profile descriptions	9
42	:Soil classification in the study area	10
42	Soil Main Characteristics and Limitations	11
43	Soil Characterization Rating for Land Suitability Classification	12
43	Soil Suitability Classification of the study area	13
45	Crop Suitability rating for different groups of Crops in the study area	14
46	Land Suitability Classification for Crops in the Study Area	15

List of Tables for appendices

	Analytical Data of profile NO 01	16
57	Analytical Data of profile NO 02	17
59	Analytical Data of profile NO 03	18
61	Analytical Data of profile NO 04	19
63	Analytical Data of profile NO 05	20
66	Analytical Data of Auger Observations	21
68	Field Data of Auger Observation	22
