

Dedication

Firstly I dedicate this piece of work to the soul of the Martyrs of December great revolution 2019.

To my Parents, specially my mother for her continual support and supplication

To my all my brothers and sisters.

To my wife for her patience and moral support.

To my son Abdalla.

To my all friends and colleagues.

Acknowledgements

First of all, thanks are due to ALLAH for all His endless blessings. My deep and profound thanks and gratefulness are due to the Almighty who bestowed me with patience, perseverance and the means to achieve this study. Thanks are also due to innumerable people who have helped me differently, without their support this study could have never come to the light. Thanks are due to the Secondary Level Administration- Khartoum Locality and the Basic Level Administration- Khartoum Locality for their assistance and support. My eternal gratitude and sincerest appreciation are due to all teachers and the administration of Khalid Ibn Al-Walid Basic School for boys and also all teachers and the administration of Hairman Basic School for girls for their cooperation and help. At the same time, thanks and gratitude are due to the staff of Library of Faculty of Education- Sudan University for Sciences and Technology and also the staff of Library of College of Languages for kindness and support. My eternal gratitude and thanks are due to Prof. Dr. Mohammed Bakri Hadidi - the main supervisor - for his invaluable guidance, great support and encouragement. Throughout this study Prof. Bakri has shown extraordinary understanding, endless or continuous help and guidance morally and academically and his insightful comments and patience which he has revealed in dealing with the many difficult parts throughout the stages of this study. My deepest gratitude is also extended to my co-supervisor Dr. Alsadig Osman for his positivity, dedication and encouragement. My deepest and unlimited thanks are extended to my best friends Dr. Mohammed El Sawi and Dr. Subahi Abdalgadir (King Khalid University) for their real support. Also my thanks extended to Dr. Amer Abdalla Minalla and Dr. Ameer Abdalla Ahmed (Tabuk University) for their real observations, revision and professional advice. I am grateful to all EFL experts, EFL teachers and workers who work at Sudan University of Science and Technology for their great help during the whole period of my study at the university. Finally I should thank my brother Abdalla for his financial support, without his helping, this work could not have been real and possible.

Abstract

This study aims at investigating the utilization of communication games' strategy in promoting EFL pupils' speaking skill. EFL students at basic schools face difficulties and hindrances when they start to speak in English; therefore, this study intends to help them overcome those problems. The researcher has adopted empirical and descriptive methods. Two instruments have been used as primary tools for collecting the data relevant to the study, namely a questionnaire for teachers of English language at various basic schools and oral pre-post tests for sixth year pupils' at Hairman Basic School for Girls and Khalid IbnAlwalid Basic School for Boys in Khartoum Locality. The study sample of questionnaire comprises (50) teachers whereas the oral (pre-post) test involves (40) pupils. Also, ten pupils were interviewed for a short time concerning their impressions about communication games. So, both quantitative and qualitative tools are employed. The researcher applied (SPSS) program to analyze and verify the hypotheses. The study results are; firstly, playing games is an effective technique for engaging pupils in using English language verbally as long as possible. Secondly, it is clear that teachers involved in this study strongly agree that using communication games' strategy is useful to EFL students because of its positive impact on students' output in verbal classroom interaction. Thirdly, students are kinesthetic and enthusiastic in using communication games in classroom in a way that fosters their speaking skill. On the light of these results, the researcher recommends that games should be employed for verbal classroom interaction to improve the pupils' speaking skill. Curricula designers, educators, and experts should include sufficient language games in the syllabus in order to courage and motivate the pupils in learning the foreign language. Teachers' role should be changed from an instructor who dominates the class into an educator whose role is to help, support, and guide the pupils to acquire the foreign language. Finally, the study includes someother recommendations and concludes with some suggestions for further studies.

مستخلص الدراسة

Arabic Version

تهدف هذه الدراسة إلى تطبيق الألعاب التوافقية في تطوير مهارة الكلام لدى تلاميذ الاساس دارسي اللغة الإنجليزية كلغة أجنبية. يواجه التلاميذ دارسي اللغة الإنجليزية كلغة أجنبية صعوبات وعوائق عند التحدث باللغة الإنجليزية، لذلك تهدف هذه الدراسة إلى مساعدة أولئك التلاميذ في التغلب على هذه المشكلات. وقد اتبع الباحث المنهج الوصفي التجريبي، وتم استخدام أداتين لجمع البيانات المتعلقة بالدراسة المتمثلة في استبيان صمم خصيصاً لأساتذة اللغة الإنجليزية في مرحلة الأساس وأيضاً تم إجراء اختبار شفهي قبلي وبعدي لتلاميذ المستوى السادس في مدرستي هيرمان أساس بنات وخالد بن الوليد أساس بنين بمحلية الخرطوم. وقد تم اختيار عينة بحجم (50) أستاذاً لإجراء الاستبيان، بالإضافة إلى عينة بحجم (40) من التلاميذ لإجراء الاختبار القبلي والبعدي. أجريت معاينة لمدة قصيرة لعشرة تلاميذ بغرض معرفة انطباعاتهم حول الألعاب التوافقية. وبذلك تم استخدام الاداتين الكمية والنوعية. استخدم الباحث برنامج الحزم الاحصائية للعلوم الاجتماعية (SPSS) لاختبار الفرضيات. وقد توصلت الدراسة إلى النتائج الآتية: أولاً، استخدام الألعاب كأسلوب فعال له تأثير في جذب انتباه التلاميذ في استخدام اللغة الإنجليزية لفظياً على المدى الممكن. ثانياً، من الواضح أن المعلمين المشاركين في هذه الدراسة وافقوا بشدة على أن استخدام إستراتيجية الألعاب التوافقية مفيد للتلاميذ دارسي اللغة الإنجليزية كلغة أجنبية بسبب تأثيرها على مخرجات التلاميذ في التفاعل الصفي اللفظي. ثالثاً، كان التلاميذ متحمسين حركياً في استخدام الألعاب التوافقية داخل الفصل الدراسي إلى المدى البعيد مما عزز مهارة التحدث لديهم. على ضوء هذه النتائج أوصى الباحث بضرورة استخدام الألعاب التوافقية للتفاعل اللفظي داخل فصول الدراسة لتحسين مهارة التحدث لدى التلاميذ، ينبغي على مصممي المناهج، المعلمين والخبراء تضمين ألعاب توافقية كافية في المنهج الدراسي من أجل تشجيع وتحفيز الطلاب على تعلم اللغة الأجنبية، ينبغي أن يتغير دور المعلم من السيطرة على الفصل إلى المعلم الذي يمثل دوره في توجيهه، دعم ومساعدة التلاميذ على اكتساب اللغة الأجنبية بسهولة. هذا وقد حملت الدراسة لبعض التوصيات وختمت ببعض الاقتراحات لدراسات لاحقة .
