

Acknowledgement

Before of all, the praise and thanks be to Allah whom to be ascribed all perfection and majesty.

The thanks after Allah must be to my virtuous teacher Associated Prof. Dr. Karlo Ayuel Kuocgor who supervised this research and guide me in patience until the results of this research are obtained.

I wish to express my thanks to the Sudan Government, the Gezira University for the chance that they gave to me to do the Master Degree of Science.

Also, I wish to express my thanks to the Sudan University of Science and Technology, Department of Physics.

My gratitude is sent to Mr. Abubakr Ahmed Abdulgadir, Mr. Anas Omer Abdelwahab, and Mr. Jamal Abdel Hamid.

My thanks, also must be sent to all my friends and classmates for any support that make me complete this research.
