This thesis is the end of my journey in obtaining my Msc. I have not traveled in a vacuum in this journey. This thesis has been kept on track and been seen through to completion with the support and encouragement of numerous people including my well wishers, my friends, colleagues and my institution Electronics Engineering School, Sudan University of Science and Technology (SUST). At the end of my thesis, it is a pleasant task to express my thanks to all those who contributed in many ways to the success of this study and made it an .unforgettable experience for me

At this moment of accomplishment, first of all I pay homage to my guide, late. **Dr. Rashid A. Saeed**. This work would not have been possible without his guidance, support and encouragement. Under his .guidance I successfully overcame many difficulties and learned a lot Last but not least, I would like to pay high regards to my father **Dr. Mohamed Zein**, my mother Samira, my brothers and sisters Muhga, Malaz, Maab, Abud Rahman, Mohamed, Yasir, Altaiyb and little one matab for their sincere encouragement and inspiration throughout my research work and lifting me uphill this phase of life. I owe everything to them. Besides this, several people have knowingly and unknowingly .helped me in the successful completion of this project
