Appendix 10

Quality Assurance Manual (covering Paper)

This manual describes the Quality Assurance Program that will be continuously implemented by:

Facility Name: 
Address: 
Date Completed by Facility 
Date(s) reviewed/updated with Medical Physicist 

I _____________________________ (registrant) will carryout the QA Program, set the goals and direction, determine the policies, and assess the effectiveness of the QA program. The medical physicist and I will review the QA program annually. The review will consist of the certified medical physicist and I reviewing the QA Manual, all tests, test results and corrective action taken and any recommendations offered by the medical physicist or other staff.
