USE OF PP AND PET WASTE IN CARPET MANUFACTURE

Submitted as Partial fulfillment of the requirements for the degree of M.Sc. in (Textile Engineering)

By:
Enas Ibrahim Ali Mousa
B.Sc (Honours), Textile Engineering, Sudan University of Science and Technology, 2002.

Supervisor
Dr. Hago Elfadil

April 2006
DEDICATION

To my,
Family
Teachers
& Friends
With gratitude and love
Acknowledgement

First, Thanks to God who enabled me to complete this work. I assign appropriate credit to all who have contribute in some way to make this study in its final shape.

Second I would like to express my thanks and gratitude to my supervisor Dr. Hago Elfadil for close supervisions and advice.

Also, thank to Omdurman plastic carpet factory – Administration, staff especially Administrator Engineer Rahamt Allah Elmadani & thanks are due to Dr. Ahmed Ibrahim for his valuable assistance.

Finally, I grant my thanks to all who enhanced me with help in this study.

## Chapter One : INTRODUCTION

1.1 Definitions                              3
1.2 Use of PP                                 3
1.3 Use of PET                                4
1.4 Objectives                               4

## Chapter Two : Literature Review

2.1 History and development of plastics raw material 5
2.2 The Economic and environment impact of plastic waste 6
2.3 The plastics recycling                      7
2.4 Consumption of plastic in packing application 8
2.5 The plastics recycling industry in Europe    9
2.5.1 Structure of the recycling industry –by country 9

## Chapter three : Material and Methods

3.1 Polypropylene                             13
3.1.1 Raw Materials of production PP          15
3.1.2 Polymerization of Propylene             17
3.1.3 PP Manufacturing                        18
3.2 Polyester                                20
3.2.1 Fiber-Forming and film- forming polyester 20
3.2.2 Raw Material for production polyethylene terephthalate 21
3.2.3 PET Manufacturing                       22
3.3 PP and PET Recycling                      27
3.3.1 Spinning and Processing condition of PP 27
3.3.2 Spinning and Processing condition of PET 27

## Chapter Four : Result and Discussion

4.1 Post use PP and PET in Sudan               28
4.2 Virgin PP and PET Carpet Manufacturing     29
4.3 Carpet Made from Recycle PP and PET        29
4.4 PP and PET recycle process                36
4.5 Discussion                               36
| 4.6 | Conclusion | 36 |
| 4.7 | Recommendation | 37 |
| References | 38 |
