

بِسْمِ اللَّهِ الرَّحْمَنِ الرَّحِيمِ

قال تعالى:

**(وما توفيقي إلا بالله عليه توكلت وإليه أنيب)**

صدق الله العظيم

سورة هود (الآية 88).

## Dedication

*Dedication to:*

*Our parents, sisters and brothers. Thanks so much for all your support encouragement. Love and respect.*

## **Acknowledgements**

To start with we would thank firstly to Alla then our family and anyfrind for their help and encouragement.

It is not possible to acknowledge everyone who helped our write this book but special mention is due to prof .Mohamed Abdel Karim, Who have always encouraged me in my work.

We are also thanks due to several of ourclasses associates who generously contributed their inputs and shared their experiences.

Above all , we indebted to our parents without whose blessing we are not have achieved anything in life.

## **Abstract**

In this study phenolic compounds were extracted from *Chrozophora* using 95% ethanol.

The crude extracts were subjected to thin layer chromatography .in this way compound (A) was isolated from *Chrozophora*.

The IR spectrum gave the expected functional groups for compound (A).

## مستخلص الدراسة

استخلصت المركبات الفينولية في نبات الارقسي 95% ايثانول وعن طريق كروماتوغرافيا الطبقة الرقيقة تم فصل المركب (A) من نبات الارقسي باستخدام الاسيتيك اسيد والماء بنسبة 50% كمذيب.

اوضح طيف الاشعة تحت الحمراء وجود الزمر الوظيفية المتوقعة.

Table of content	.vi
<b>Chapter one</b> Introduction	
1. Introduction	1
1.1 Definition	1
1.2 Classification of Flavonoids	2
1.2.1 Flavones	5
1.2.2 Flavonols	7
1.2.3 Flavanones	11
1.2.4 Dihydroflavonoles	11
1.2.5 Isoflavones	13
1.2.6 Neoflavonoid	14
1.2.7 Minorflavonoid	14
1.2.8 Anthocyanins	15
1.2.9 Chalcones	18
1.2.10 Aurones	19
1.3 Extraction	21
1.4 Chrozophoraplicata	25
<b>Chapter Two</b> Material and Method	
2. Material and Method	26

2.1 Sample collection	26
2.2 Prepration of Sample	26
2.3 Extraction of sample	26
2.4 Chromatography	26
2.4.1 Thin layer chromatography	26
<b>Chapter three</b> Results and Discussion	
3. Result and Discussion	28
3.1 Spectral data of compound	28
3.2 Reference	29
