

الآية

قال تعالى:

بسم الله الرحمن الرحيم

لَا إِلَهَ إِلَّا هُوَ الْحَيُّ الْقَيُّومُ لَا تَأْخُذُهُ سِنَّةٌ وَلَا نَوْمٌ لَّهُ مَا فِي

السَّمَاوَاتِ وَمَا فِي الْأَرْضِ مَنْ ذَا الَّذِي يَشْفَعُ عِنْدَهُ إِلَّا بِإِذْنِهِ يَعْلَمُ مَا
بَيْنَ أَيْدِيهِمْ وَمَا خَلْفَهُمْ وَلَا يُحِيطُونَ بِشَيْءٍ مِّنْ عِلْمِهِ إِلَّا بِمَا شَاءَ وَسِعَ
كُرْسِيُّهُ السَّمَاوَاتِ وَالْأَرْضَ وَلَا يَئُودُهُ حِفْظُهُمَا وَهُوَ الْعَلِيُّ الْعَظِيمُ

صدق الله العظيم

سورة البقرة، الآية (255)

Dedication

To my parents

To my brothers and sisters

To my teacher Mohammed Sulieman

Acknowledgment

I would like to express my thanks and deep respect to those who help me in this work especially my supervisor Dr: Mohammed Suleiman , for this kindness encouragement , advices and great help , also I would like to thank for lab of Sudan university .

Abstract

Identification to family of Ceflaxin and determination the chemical structure of Ceflaxin, mechanism of action, side effect, warning, dosage, administrant and commendation of ceflaxin have being carried out through this research.

Studied Ceflaxin practical and identification to chemical properties (PH, Assay) and physical properties (specific gravity).

Calculation the assay of cefaxin by used device HPLC and discussion the result.
