

College of Petroleum Engineering & Technology

Department of Petroleum Engineering

**EVALUATION OF SURFACTANT FLOODING FOR ENHANCED OIL RECOVERY
AS A POSSIBILITY IN (Bamboo-FIELD) BASED ON APPLIED RESERVOIR
SIMULATION (CMG)**

دراسة الغمر بالمحفزات السطحية كطريقة ممكنة لتحسين استخلاص الزيت في (حقول)
تطبيق ال (CMG) بامبو اعتماداً علي تمثيل المكامن بواسطة

**Presented to the college of petroleum engineering & technology for
partial fulfillment of the requirement for the degree of B.sc of petroleum
engineering**

Presented by:

- 1. Khaled Sayed Mohammed Ali**
- 2. Maher Ahmed Awadalkreem Hamad**
- 3. Mohammed Alfadel Bushra Ahmed**
- 4. Mohammed Mubarak Altayeb Almubarak**

Supervised by:

Eng. Fatima Khalid
