

List of Figures

Figure	Title	Page
(2.1)	The component of Marine Information System(MIS)	11
(3.1)	Multi Beam and Single Beam	25
(3.2)	ALB operating principle. Infrared energy travels to water surface, and blue green energy travels through water column	26
(3.3)	Side Scan Sonar	27
(3.4)	ACOUSTIC PINGER BEACONS	29
(3.5)	Gyro Compass	30
(3.6)	Remotely Operated Vehicles	31
(3.7)	Sound velocity probe.....	31
(3.8)	Vessel survey	32
(4.1)	The pull of the moon and the earth	34
(4.2)	The relationship of the earth, sun and moon at spring tide	35
(4.3)	The relationship of the earth, sun and moon at spring tide	35
(4.4)	The relationship of the earth, sun and moon at neap tide	36
(4.5)	Tidal Range	37
(4.6)	Tidal Reference Planes	40
(5.1)	Wave height and wave period	47

(5.2)	Month and Average Rainfall	49
(5.3)	Month and Speed Wind	51
(5.4)	Month and Average Temperature	54
(6.1)	The study area	57
(6.2)	Seabed contour	58
(6.3)	Variation Salinity Model	59
(6.4)	Variation Temperature Model	60
(6.5)	Variation Density Model	60
(6.6)	Wind Direction and Speed	61
(6.7)	Day V.S tidal range for January	63
(6.8)	Day V.S tidal range for June	64
(6.9)	Day V.S tidal range for December	65
(6.10)	Water Column Temperature	65
(6.11)	Water Column Density	66
(6.12)	Water Column salinity	66
(6.13)	Sound velocity and Depth	68
(6.14)	Tidal and Land model	69
(6.15)	Temperature and salinity models	70
(6.16)	Density and Salinity models	70
(6.17)	Temperature and Density models	71
