**College Of Graduate studies**

**Possibility Of Diagnosing Subdural Haematoma  
(SDH) By Conventional X-Ray Imaging In  
Comparison With CT Imaging**

A thesis submitted for partial fulfillment for the award of M.Sc  
degree in Diagnostic Radiologic Technology

**Presented by\**

Nesreen Hassan Abd EL rahman

**Supervised by\**

Ustaz/ Hussein Ahmed Hassan

| <b>Title</b>  | <b>Page</b> |
|---|-------------|
| Dedication  | I           |
| Acknowledgment  | II          |
| List of abbreviation  | III         |
| List of figures & tables  | IV          |
| Abstract (English)  | V           |
| Abstract (Arabic)   | VI          |
| <b>Chapter One: <i>Introduction &amp; Research planning</i></b>         |             |
| 1-1 Introduction  | 1           |
| 1-2 Problem of the study  | 2           |
| 1-3 Hypotheses  | 2           |
| 1-4 Objectives of the Study   | 2           |
| 1-5 Methodology   | 2           |
| 1-6 Contents of the study   | 3           |
| <b>Chapter Two: <i>Anatomy, Physiology, Pathology and Technique</i></b> |             |
| 2.1 Anatomy   | 4           |
| 2.1.1 The cranial cavity  | 5           |
| 2.1.2 Anterior cranial fossa  | 5           |
| 2.1.3 Middle cranial fossa  | 6           |
| 2.1.4 Posterior cranial fossa   | 7           |
| 2.1.5 The Meninges  | 9           |
| 2.1.6 The venous sinuses  | 11          |
| 2.1.7 Parts of the Brain  | 12          |
| 2.1.7.1 The forebrain   | 13          |
| 2.1.7.2 The Midbrain  | 14          |
| 2.1.7.3 The hindbrain   | 14          |
| 2.1.8 Ventricles of the brain   | 16          |
| 2.1.9 Blood supply of the brain   | 16          |

|   |    |
|---|----|
| 2.6 Cranial nerves  | 18 |
| 2.2 Physiology  | 18 |
| 2.2.1 The nervous system                                    | 18 |
| 2.2.2 Cerebro-Spinal Fluid (CSF)                            | 21 |
| 2.2.3 Blood -Cerebrospinal fluid and Blood – Brain Barriers | 21 |
| 2.3 Pathology   | 22 |
| 2.3.1 Trauma (head injury)                                  | 22 |
| 2.3.2 Haematomas  | 22 |
| 2.3.2.1 Epidural Haematomas                                 | 23 |
| 2.3.2.2 Subdural Haematoma (SDH)                            | 23 |
| 2.3.2.3 Intracerebral haematoma (ICH)                       | 28 |
| 2.4 Technique   | 28 |
| 2.4.1 Conventional Skull X-ray Technique                    | 28 |
| 2.4.1.1 Lateral   | 28 |
| 2.4.1.2 Occipito-frontal                                    | 29 |
| 2.4.2 CT Technique  | 30 |

### **Chapter three: *Material and methods***

|                               |    |
|-------------------------------|----|
| 3.1 patients                  | 32 |
| 3.2 Machines                  | 32 |
| 3.2.1 Conventional CT scanner | 32 |
| 3.2.2 Spiral CT scanner       | 32 |
| 3-3 Technique                 | 33 |
| 3-4 Image interpretation      | 35 |

### **Chapter Four: *Results***

|         |    |
|---------|----|
| Results | 36 |
|---------|----|

### **Chapter five: *Analysis, discussion, Conclusion and Recommendations***

|                             |    |
|-----------------------------|----|
| 5.1 Analysis and discussion | 40 |
| 5.2 Conclusion              | 41 |
| 5.3 Recommendations         | 42 |
