## Dedication

**We Dedicate this Research Work to  
Our Mothers, Fathers, Brothers,  
Sisters and Friends with Deep Love  
and Sincerity.**

# Acknowledgments

Above all, praise is to our almighty Allah for giving us good health, wisdom, ability, and strength to carry out this research work and for all other graces. We would like to express our deep and sincere gratitude and appreciation to our supervisor Professor/Mukhtar Taha Abu-Samra, for his excellent guidance, support, and continuous encouragement throughout this research project, and also for his invaluable assistance and instructions, without which, it would not have been possible to accomplish this research work, and for reading and correcting the manuscript.

We are also indebted to Dr. Khalid Rodwan and Professor/Siham Elias and the technical staff Department of Microbiology, Faculty of Veterinary Medicine, the Sudan University of Science and Technology, for their kind assistance and guidance.

We would like to express our sincerest appreciation and deepest thanks to the Dean and administrative staff, Faculty of Veterinary Medicine, for financial support without which it would not have been possible to accomplish this research project.

Finally, we are thankful to all our Colleagues and friends for their everlasting support.
