

## Table of Contents

Dedication .....	ii
Acknowledgment .....	iii
Abstract (English Language ) .....	v
Abstract (Arabic Language) .....	vi
List of Abbreviations .....	vii
List of Contents .....	viii
List of Figures .....	x
List of Tables .....	xii
<b>Chapter One: Introduction .....</b>	<b>1</b>
1.1. Inroduction.....	1
1.2. Target volume definition.....	5
1.4. Set-up variations/set-up margin.....	11
1.5. The problem.....	12
1.6. The Objectives.....	13
1.7. The significance of the study.....	12
1.8. The Overview of study.....	13
<b>Chapter Two: Literature Review.....</b>	<b>14</b>
2.1. Problems of respiratory motion detection during radiotherapy:.....	14
2.2. Magnitude and measurement of respiratory motion.....	18

2.2.1. The mechanics of breathing.....	18
2.3. Mathematics of breathing.....	21
2.4. Measuring respiratory motion.....	21
2.5. Respiratory Motion observations.....	25
2.6. Four-dimensional (4-D) CT/respiration-correlated CT.....	29
2.7. 4D Imaging Model.....	35
2.7.1. Model Estimation.....	38
2.8. Respiratory gating methods.....	41
2.8.1. Gating using an external respiration signal.....	44
2.8.2. Gating using internal fiducial markers.....	49
2.8.3. Gated IMRT.....	51
2.8.4. Gating based on respiration monitor.....	53
2.8.5. Calculating the effect of tissue motion.....	54
2.8.5.1. Including the motion concept in treatment planning.....	54
2.9. Optical imaging for motion correction.....	55
2.10. Modifying intensity modulated beams to account for motion.....	57
2.11. Breath-hold methods .....	62
2.11.1. Deep-inspiration breath-hold.....	62
2.11.2. Active-breathing control.....	66
2.11.3. Self-held breath-hold without respiratory monitoring.....	72
2.11.4. Self-held breath-hold with respiratory monitoring.....	74

<b>Chapter Three: Methodology.....</b>	<b>93</b>
3.1. Materials.....	94
3.1.1. Computed Tomography.....	94
3.1.4. Treatment Units.....	94
3.1.4.1. Linear Acceralator (IMRT and IGRT Systems ).....	94
3.2. Methods.....	96
3.2.1. Sampling.....	96
3.2.2. Method of Data Collection.....	98
3.2.2.1. Image Registration Technique.....	98
3.2.2.2. 3D Motion Analysis for Patient Positioning in Radiotherapy.....	103
3.2.3. Method of Data Collection.....	103
3.2.3.1. Motion analysis.....	104
3.2.4. Data Storage Method.....	106
3.2.5. Ethical Issue.....	106
<b>Chapter Four: The Results.....</b>	<b>107</b>
<b>Chapter Five: Discussion, Conclusion and Recommendations.....</b>	<b>126</b>
<b>References.....</b>	<b>131</b>
<b>Appendices.....</b>	<b>I-XLII</b>
