I dedicate my thesis to the soul of my father, to my loving mother and family.

Acknowledgments

First and foremost, praise be to Allah who granted me the strength and ability to pursue this study. I am very grateful to my supervisor Dr. Amna Mohamed Abd Alkareem Bedri who spared no effort in guiding me through this work. I am also greatly indebted to the staff of Faculty of Graduate Studies, Sudan University of Science and Technology, and English Language Department, Faculty of Education who were very cooperative and supportive to me. My gratitude is due to all of the students and teachers who participated in my questionnaire and interview.

Abstract

This study aims to investigate and identify the prospective role of computer access at University, Information and Communication Technology (ICT) expertise and related computer qualifications in the development of pre-service teachers' self-efficacy. It also aimed to examine ICT self –efficacy levels among Sudanese EFL pre-service teachers and to what extent can this affect the adoption of suitable instructional principles in the classroom. The study adopted a descriptive methodology which combined both qualitative and quantitative analysis. Two instruments were used for data collection which were a questionnaire for (50) pre-services teachers and an interview for (7) in-service teachers. Responses were analyzed using a statistical package for social science (SPSS). The social cognitive theory was used as a framework to measure the self-efficacy levels. Some of the most important results revealed that, although a limited number of the EFL pre-service teachers have access to computers at University, it is confirmed that almost all EFL pre-service teachers trust their ability to effectively implement and integrate the wide range capabilities of ICT into their current learning approaches and future classrooms contexts. Furthermore, EFL pre-service teachers exhibited higher ICT self-efficacy levels. The study also offered some recommendations the most important of which is for the Ministry of Higher Education to sponsor ICT training courses, workshops and seminars to motivate and encourage teachers to utilize ICT for educational purposes. Moreover, Universities, Colleges and teacher training Institutes should take positive steps in equipping pre-service teachers with ICT knowledge and skills required. Moreover the study gave suggestions for further research in the same area.

مستخلص البحث

تهدف هذه الدراسة للتقصي والتعرف على الدور الذي يلعبه استخدام الحاسب الالى في الجامعة والخبرات العملية والعلمية في تقنية المعلومات وعلوم الاتصال في تطوير الكفاءة الذاتية لدى طلاب اللغة الانجليزية. كما هدفت الدراسة أيضا الي قياس مستويات الكفاءة الذاتية المتعلقة باستخدام هذه الوسائط ومدى تأثير ذلك على طرق وأساليب التعليم. اتبعت الدراسة المنهج الوصفي والذي مزج بين نوعي التحليل الكيفي والكمي للبيانات. استخدمت الأستبانة كأداة لجمع البيانات من عينة البحث والتي تكونت من عدد خمسين طالبا من طلاب الفرقة الرابعة كما تم اجراء المقابلة الكتابية مع عدد سبعة من اساتذة اللغة الانجليزية. اعطت البيانات التي توفرت من عينة الطلاب والأساتذة اجابات لأسئلة الدراسة. تم تحليل البيانات باستخدام برنامج التحليل الاحصائي للعلوم الاجتماعية (SPSS). وتم استخدام نظرية (الإدراك الاجتماعي) كإطار في تحليل مستويات الكفاءة الذاتية لدى الطلاب. ومن أهم النتائج التي توصلت اليها الدراسة أن معظم طلاب الفرقة الرابعة يتمتعون بثقة عالية في مقدرتهم على استخدام تقنية المعلومات وعلوم الاتصال للأغراض التعليمية حاضرا ومستقبلا على الرغم من محدودية استخدامهم للحاسب الالى في الجامعة. اضافة الي ذلك، برهنت النتائج أيضا ان طلاب الفرقة الرابعة يتمتعون بمستوى عال من الكفاءة الذاتية الامر الذي يرجح إمكانية استخدام وتطبيق أفضل الممارسات التعليمية في المستقبل. كما ان الدراسة قد خرجت بتوصيات من أهمها أن تقوم الجامعات بتحفيز وحث الأساتذة على استخدام تقنية المعلومات وعلوم الاتصال في العملية التعليمية وذلك من خلال رعاية الدورات التدريبية المتخصصة والسمنارات والورش. أوصت الدراسة أيضا بان تقوم الجامعات والكليات بتوفير مناخ تعليمي فعال وجاذب ومحفز يمكن الطلاب من استخدام تقنية المعلومات وعلوم الاتصال للأغراض التعليمية. وتضمنت الرسالة أيضا بعض المقترحات للدراسات ذات الصلة في المستقبل.
