

Sudan University of Science and Technology

College of Graduate Studies

Design of Control System for Water Lifting and Irrigation using Wind Energy

تصميم نظام للتحكم في رفع المياه والري باستخدام طاقة
الرياح

A Thesis Submitted for Partial fulfillment for the Requirements of the
Degree of M.sc in Mechatronics Engineering

Prepared By:

Nosiba Jaafar Mohammed Ali

Supervisor:

Ust. Abdallah Salih Ali

April .2017

Chapter One

Introduction

Chapter Two
Literature Review

Chapter Three

System Design

Chapter Four

Simulation and Results

Chapter five

Conclusion and recommendations
