Chapter 1: Basic concepts	1
Chapter 2: Operators on weighted Bergman spaces	7
Sec.(2.1): Duality results	7
Sec.(2.2): Carlson measures,Hankel operators and composition Operators .	17
Sec.(2.3): Pointwise multipliers.	24
Chapter 3: Multiplication invariant subspaces of the Bergman Space.	33
Sec.(3.1): Perturbation and convergence of reproducing kernels.	33
Sec.(3.2): Wandering subspace and inner functions.	61
Chapter 4 : Strongly exposed points in the ball in Bergman space.	67
Sec.(4.1): Strongly exposed points in Bergman space and the Functions of polynomials(I).	67
Sec.(4.2): The space $(A^1)^{++C}$, and functions of Polynomials (II) .	76
List of symbols .	91
