

Plate (1) lauryl tryptose test
Left: positive (turbid with gas)
Right: Negative (no turbidity no gas)

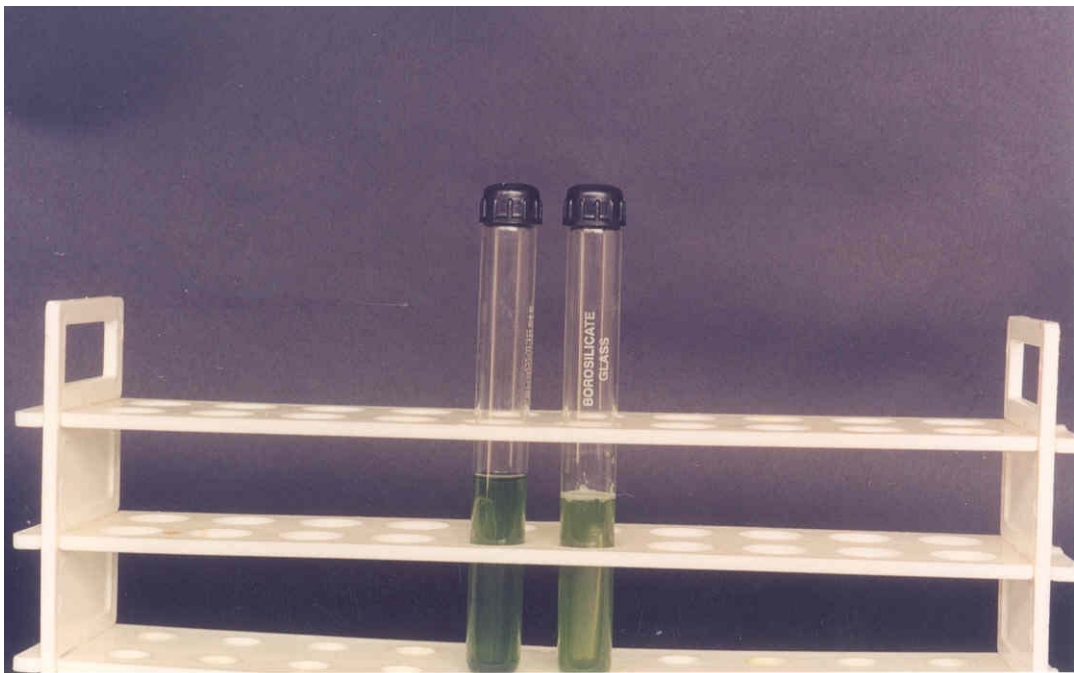

Plate (2) Brilliant green test
Right: positive (turbid medium with gas production)
Left: Negative (no turbidity and no gas production)

Plate (3) well from which samples were collected

Plate (4) a tap from which samples were collected

Plate (5) Example of appositive Presumptive test. Turbidity in all tubes and gas in all Durham's tubes (MPN=180)

Plate (6) Example of negative Presumptive test. No turbidity in all tubes and no gas production in all Durham's tubes (MPN=0)

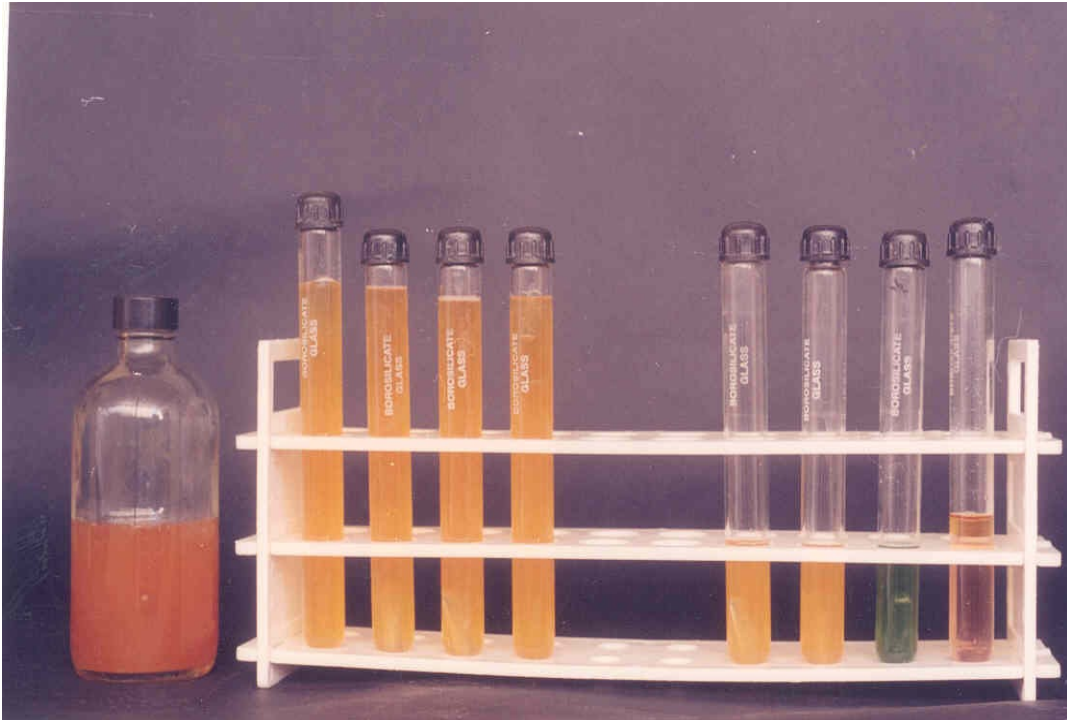

Plate (7) showing both Presumptive and confirmed test
Confirmed test showed no turbidity in Brilliant green bile salt and negative indole test
Madinat Elneel A. (MPN=20)

Plate (8) showing both Presumptive and confirmed test
Confirmed test showed turbidity in Brilliant green bile salt and positive indole Test)
In Elrayad Hara 8 (MPN = 50)

Plate (9) showing indole test

Left: positive Test

Right: negative test

Left: positive test
