An Evaluation Of Computer Package For Teaching Literature

a thesis submitted as partial fulfillment of M.ed degree

In Computer Integrated Education

Submitted By: Ezzelden Ibrahim Mohammed Ibrahim

Supervised By: Dr. Abdelazim Zein Elabdin Ahmed.

Acknowledgements

I would like to express my great and hearty thanks to a number of people for their support throughout the writing of this dissertation.

- *Dr.* Abdelazim Zein Elabdin Ahmed. The supervisor, for his continuous guidance, support and advises that has been behind any work of this research. With his patience and guidance and support this study took the right path. My thanks to him for his thoughtful insights about flow clarity and coherence, and his valuable comments. His sincere advices, fatherhood during any bit of this research, gave me confidence in my work. Deep thanks also extends to
- Professor.Osman Ahmed Abdalwahab who supported and encouraged and advice me to carry on my research. Deep thanks also extends to: -
- Professor Ezzeldin Mohammed Osman, who put the roots of all my master study and encourage and motivated during course period and continued to support and never gave up.

Great and hearty thanks also extents to those who never forget their students and who still support and encouraged and guide them anywhere at any time.

- Professor Johannes Cronje, the humble and humane the father of instructional design and computer-integrated education in Africa really there is no word that satisfies and expresses my feeling towards him.
- Professor Saugent blequenant, for coming to Sudan and giving significant support and lectures.
- Doctor Dolf Stein for coming to Sudan and provided with knowledge about authoring and managements.

Dedication

I would like to dedicate this simple work.

To
My Father

To
My Mother

To
My Colleagues

To
All Whom I love

Abstract

The aim of this research is to evaluate learning package for teaching literature to enhance lectures and to provide supplementary material for students to study outside lectures.

The researcher selected 50 students, from Sudan University of science and technology they were arranged as one group.

In order to achieve the effectiveness of this programme pre test , post and checklists were given to the sample.

The following Statistical methods are used in analyses of the results:-

T –Test

χ^2

From the previous collected data and by comparing the achievements of the student to the pre and post-test we concluded that there is statistical significance difference in favour of posttest. And from student's response to checklist

The following results were achieved: -

- ❖ This learning package enhances learning and encourages students to work as group.
- ❖ This learning package achieve four adequacies (Cosmetic, Pedagogical, technical and curriculum)
- ❖ This learning package made learning English literature interesting and easy.
- ❖ This learning package increases effectively the learning of students.
- ❖ This learning package motivates students and makes learning process easy and fast.
