

APPENDIX 5
Student's Model Response/ Sample 40/3

example reason

In a three – paragraph topic (at least) write about the situation in Gaza Strip under the Israeli occupation, the present situation under the auspices of Palestinian National Authority PNA and your future expectations.

(Write No less than 200 words)

..... Gaza strip is a small ^{SP} peice of Land which contains a very ^{SP} long number of people. This strip has faced a lot of challenges which affected it and ^{have} still ^{ref} its influences on its

dev people. For example, its situation under the Israeli occupying the present situation under the auspices of Palestinian National Authority and the future expectations.....

Examp. p. 1. R
..... First of all, the situation in Gaza strip under the Israeli Occupation had many negative effects on people, economy, and agriculture. For example, a large number of people were martyred, imprisoned or even injured by the occupation. Their families were the first who suffered from this situation. Accordingly, this led to a severe ^{2W} ^W maldistribu ^{hyp} tion in the field of economy. These people were either workers or ^{SP} culturers ^{ref} in it. Moreover, the ruining of factories and ports was something that its effects can not be ignored at all. Above all, the ^W wrecking of crops and plants had the main reason for the condition of the strip since it is its main source of economy such as, ^{SP} planting citrus trees and ^{SP} strawberry.....

..... To observe the situation now under the ^{SP} auspices

of Palestine National Authority, it is very very unstable and worrying. The strip is in a ^{fray} situation that needs a lot of efforts and mass work. It ^{vb} is needed to be rebuilt again in its ^{sp} different fields that any society would depend on. Moreover, to obtain such a desire, a lot of efforts and money ^{agn} is needed. Regarding the efforts, it is for sure that no one can keep his/his efforts to build her/his country. However, the money issue is something very difficult especially with an empty exchequer and banks that can not deliver the ^{ww} helps.

The most important ^{sp} and ^{sp} mystery point is my future expectations. It is, ^{sp} infact, something that can not be ^{sp} measured or recognized in any way. Every day we are exposed to new news and ideas. Still, these ideas are not born to reality yet. Consequently, it gives a negative feeling about the future. On the other hand, ^{sp} dealing with an authority which depends on Allah first of all, and keeps the ^{ww} outward looking at it in a ^{arrangement} cheerful different way, can give some positive intentions about what could happen.

Finally, it can be said that such a strip with all the challenges can stand very strongly to face any arrogant wind.
