

Acknowledgement

I would like to thank number of people who made it possible for me to complete this research.

First of all, I thank Sudan University of Science and Technology for this opportunity to do this research. My sincere gratitude is dedicated to my tutor Professor Mohammed Farah Abd Elhaleem for his strong support, guidance and comments through the process of completing the thesis.

I also address my appreciation to Mr. Zein Elabdin Elborai Ahmed FCCA for his support. My thankfulness is also addressed to Dr. Omer Elbashir Elhassan for his fruitful comments on the questionnaire and Dr. Hamid Humaida for his assistance in analyzing the questionnaire.

Further more, thank you all my family and friends for help and support and those who answered the questionnaire.
