Dedication	II
Acknowledgement	III
Abstract	IV
مستخلص الدراسة	VI
Chapter one (introduction,objectives and rationale)	
1. Introduction	1
Chapter two (literature review)	
2.1 Diabetes melliteus	5
2.1.1 Classification	5
2.1.1.1 Earlier classification	6
2.1.1.2 revised classification	7
2.1.1.3 Application of new classification	7
2.1.2 Etiological types	8
2.1.2.1. Diabetes melliteus type 1	9
2.1.2.2. Diabetes melliteus type 2	10
2.1.2.2.1. Sign and symptoms of diabetes melliteus type two	10
2.1.2.2.2. Causes of diabetes melliteus type 2	11
2.1.2.2.3. life style of diabetes mellitues	11
2.1.2.2.4. Gentic of diabetes mellitus type 2	12
2.1.2.2.5. Medical condication of diabetes mellitus type 2	12
2.1.2.2.6. Pathophysiology of diabetes mellitus type 2	12
2.1.2.2.7. Screening of diabetes mellitus type 2	13
2.1.2.2.8. Prevention of diabetes mellitus type 2	13
2.1.2.2.9. Mangment of diabetes mellitus type 2	14
2.1.2.2.9.1. Glycatedheamoglobin	14
2.1.2.2.2. Complication of diabetes mellitus type 2	15
2.1.2.2.2.1. Acute complication of	15

diabetes mellitus type 2	
2.1.2.2.2. Chronic complication of diabetes mellitus type 2	16
2.2. Myocardial infarction	20
2.2.1. Classification of myocardial infarction	20
2.2.2. Risk factor of myocardial infarction	21
2.2.3. Diagnosis of myocardial infarction	22
2.3. Liver enzyme	22
2.3.1. Aspartate transaminase	23
2.3.1.1. Isoenzyme	23
2.3.1.2. clinical significant	23
2.3.2. Alanine transaminase	24
2.3.2.1. Clinical significant	24
2.3.3. Alkaline phosphatase	26
2.3.3.1 Isoenzyme of alkaline phosphatase	26
2.3.3.2. Diagnostic use of alkaline phosphatase	26
Chapter three Material and method	
3.1 study approach and design	27
3.2. study area and period	27
3.3. Target population and sample size	27
3.4 Selection criteria	27
3.4.1. Inclusion criteria	27
3.4.2. exclusion criteria	27
3.5. ethical considration	27
3.6. Data collection and analysis	28
3.6.1 Interview with quisionare	28
3.6.2. Clinical examination of patients	28
3.6.2.1. blood sample collection	28
3.7. Biochemical insturment	28
3.7.1. Measurment of AST enzyme	28
3.7.1.1. principle of AST method	28
3.7.1.2. procedure	29
3.7.1.3. Calculation	29

3.7.2. Measurment of ALT enzyme	29
3.7.2.1. Principle	29
3.7.2.2. procedure	29
3.7.2.3. Calculation	29
3.7.3 Measurment of Alkaline phosphatase	30
3.7.3.1. Principle	30
3.7.3.2. procedure	30
3.7.3.3. Calculation	30
3.7.4. estimation of glycatedheamoglobin	31
3.7.4.1. Principle of the method	31
3.7.4.2. Reagents, composition and prepration	31
3.7.4.3. Procedure	31
3.7.4.4. Calculation	32
3.8. Quality control	32
3.9. Statistical analysis	32
Chapter four	
4. Results	33
Chapter five	
Disscusion, conclusion, recommendation	
5.1. Disscusion	48
5.2. Conculosion	50
5.3. Recommendation	51
