

List of Tables	page
Table 2.1: The radioactive sources for energy and efficiency calibration of the Si (Li) detector (Ref. IAEA chart of the Nuclides).....	25
Table 2.2 Critical temperature (T_c), crystal structure and lattice constants of some high- T_c superconductors.....	30
Table 3.1: time-temperature sequence.....	34
Table 4.2a calculation parameters (angle 0°).....	39
Table 4.2b calculation parameters (angle 10°).....	40
Table 4.2c calculation parameters (angle 30°).....	41
Table 4.2d calculation parameters (angle 60°).....	42
Table 4.2e calculation parameters (angle 89.9°).....	43
Table 4.3 a: Shows the target data.....	43
Table 4.3 b: Shows Ion data.....	44
Table 4.3 c: Shows Calculation Parameters (different angles).....	44
Table 4.3 d: Shows Sputtering Yield (different angles).....	44
Table 4.3 e: Shows Energy Loss (different angles).....	44
