Introduction	III
Abstract	IV
الخلاصة	

V

Chapter One

Sumudu Transform for one Variable

1-1 Definitions and examples	1
1-2: Properties of Sumudu transformation	4
1-3: The relation between Sumudu transform and Laplace transform	6
Examples and theorems.....	7

Chapter Tow

Special Function and Differential Equation with Variable Coefficients

Theorems	17
2-1: Sumudu transform of special functions	20
2-2: Solution of differential equation with variable coefficients.....	23

Chapter Three

Sumudu Transform for solving some Differential Equation

3-1: Solution of differential equations	28
3-2: Solution of higher order differential equations.....	31
3-3: Application of Sumudu transforms	36
Table: Laplace and Sumudu transform of some function	41
References	43
