

Sudan University of Science & Technology

Sudan University of Science & Technology

College of Graduate studies
Master Programme

**Radiation Protection and Minimization
According to Modified Schordinger Equation**

**الوقاية من الاشعاع وتقليله وفق معادلة
شرودنجر المعدلة**

**A thesis Submitted in partial fulfillment for the
requirements of master degree in nuclear physics**

**by
Elfatih Musa Ali Esmail
Supervisor
Dr. Ahmed Hassan AL Faki**

May 2013

الاستهلال

قال تعالى :

صدق الله العظيم

DEDICATION

To my great mother.

To my great father.

To my lover.

To my sisters and brothers.

To all who helped me.

This simple effort with my love & best wishes

Elfatih algamry

ACKNOWLEDGEMENT

*My great thank first & last
To Allah*

*Who helped me to prepare this
research*

*I would like to pass my great thank
collected with deep full gratitude to
my supervisor*

*Dr. Ahmed Elhasan El Faki
The Dean faculty for college of
science*

*And prof. Mubarak Dirar who helps
me at all time when I need him.*

*Also I thank my colleagues for their
advice me to held my master degree*

Contents

Chapter	Contents	P. No
	Approval	I.
	Dedication	II.
Chapter one	Abstract	1
	Radiation importance	3
	Problems	4
	Aims	5
Chapter two	presentation of thesis	5
	2-1 Radioactivity	6
	2-1-1 Alpha Decay	9
	2-1-2 Beta Decay	11
	2-1-3 Gamma Decay	13
	2-1-4 Neutrons	14
	2-2 Radiation Sources	14
	2-3 Natural Decay Series	19
Chapter three	3-0 Introduction	22
	3-1 Alpha particles interaction	23
	3-2 Beta particles interaction	24
	3-3 Gamma particles interaction	25
	3-4 Neutrons interaction	27
Chapter four	4-1 Introduction	28
	4-1-1 Direct Cell Damage	29
	4-1-2 Indirect Cell Damage	30
	4-2 Radiosensitivity of cells	31

	4-3 Effect of Radiation on Cells	32
	4-4 Long term effects	35
	4-4-1 Genetics Effects	35
	4-4-2 Somatic effect	36
	4-5 Effect of radiation on the human body	36
Chapter five	5-1 Radiation detection	39
	5-1-1 Gas Field detectors	39
	5-1-2 semiconducting detectors	40
	5-1-3 Gamma spectroscopy	41
	5-1-4 portable field instrument	41
	5-1-5 personal dosimeters	41
	5-2 Radiation dosimetry	42
	5-2-1 Quantity and units	43
	5-2-2 Dose from background radiation	46
Chapter six	6-0 Introduction	48
	6-1 Shielding of Alpha – Emitting sources	49
	6-2 Shielding of Beta – Emitting sources	50
	6-3 Shielding of photon sources	50
	6-4 Shielding of protons and light Ions	51
Chapter seven	7-1 Introduction	52
	7-2 Modified Schrodinger Equations	52
	7-3 Discussion	53
	7-4 Conclusion	53
	7-5 References	54
