	<b>ABSTRACT (English)</b>	<b>iii</b>
	<b>ABSTRACT (Arabic)</b>	<b>iv</b>
	<b>Table of Contents</b>	<b>V</b>
	<b>List of Tables</b>	<b>X</b>
	<b>List of Figures</b>	<b>Xii</b>
	<b>List of Appendices</b>	<b>Xiii</b>
<b>One</b>	<b>Introduction</b>	
1.1	Background	1
1.2	Problem Statement	2
1.3	Significance of the Study	2
1.4	Research Aim	3
1.5	Research Objectives	3
1.6	Scope and Limitation	4
1.7	Research Hypotheses	4
1.8	Research Methodology	4
1.9	Thesis Organization	5
<b>Two</b>	<b>Literature Review</b>	
2.1	Introduction	7
2.2	Safety and Health Defines	7
2.3	History of Safety	8

2.4	Safety via OSHA	9
2.5	Importance of Safety	9
2.6	Construction Safety in Middle East	11
2.7	Factors Affecting Safety Performance	12
2.7.1	Factors at Organization Level	13
2.7.1.1	Administrative and Management Commitment	13
2.7.1.2	Safety Inspections	15
2.7.1.3	Safety Meetings	15
2.7.1.4	Safety Educating and Training	16
2.7.1.5	Project Nature	17
2.7.1.6	Role of Government & Engineering Societies	19
2.7.1.7	Economic Investment	20
2.7.2	Factors at Project Level	22
2.7.2.1	Public Protection	22
2.7.2.2	Fall Prevention	22
2.7.2.3	Site Tidiness and Safe Access	23
2.7.2.4	Scaffolds	24
2.7.2.5	Ladders and Step Ladders	25
2.7.2.6	Crane and Lifting Equipment	26
2.7.2.7	Site Traffic and Vehicles	27
2.7.2.8	Excavation and Trenching	27
2.7.2.9	Fire Prevention, Emergency Planning and Preparations	28
2.7.2.10	Electricity	29
2.7.2.11	Dangerous Substances	30
2.7.2.12	Manual Handling	31

2.7.2.13	Welfare Facilities	32
2.7.2.14	Noise	33
2.7.2.15	Personal Protective Equipment (PPE)	33
2.7.2.16	Signs, Signals and Barricades	33
2.7.2.17	Historic, Human and Psychological Climate	34
2.8	Previous Studies	35
2.8.1	Levitt and Parker (1976)	35
2.8.2	Hinze and Raboud (1988)	35
2.8.3	Sawacha et al., (1999)	36
2.8.4	Jaselskis et al., (1996)	36
2.8.5	Jannadai et al., (2002)	36
2.8.6	Teo, et al (2005)	37
2.9	Summary	42
<b>Three</b>	<b>The Current Status in Sudan and Case Study</b>	
3.1	The Current Status in Sudan	44
3.2	The National Laws on Occupational Safety and Health	47
3.2.1	Act on Compensation for Work-Related Injuries for the Year 1981	47
3.2.2	Labor Low for the Lear 1997	48
3.2.3	List of Conditions and Technical Specifications of Safety Measures for the Year 2008 (Khartoum State)	48
3.3	Study Case in Khartoum State	49
3.3.1	Alhaiaa Towers Project in Kafouri	49
<b>Four</b>	<b>Research Methodology</b>	
4.1	Introduction	56
4.2	Research Design	56
4.3	Research Strategies	56

4.3.1	Literature Review	57
4.3.2	Questionnaire Survey	57
4.4	Research Sample	58
4.5	Questionnaire Development	58
4.5.1	Questionnaire Modification	59
4.6	Data Analysis	60
4.6.1	Data Collection	60
4.7	Measurement Evaluation	60
4.7.1	Introduction	60
4.7.2	Methodology	60
4.7.2.1	Reliability	60
4.7.2.2	Item Analysis	61
4.7.2.3	Validity	61
4.7.2.4	Content Validity	62
4.7.2.5	Construct Validity	62
4.7.3	Project Performance Instrument	63
4.7.3.1	Reliability	63
4.7.3.1.1	Half Split Method	64
4.7.3.1.2	Cronbach's Coefficient Alpha	65
4.7.2.1	Construct Validity	68
4.8	A Brief Description of the Respondent Firms	68
4.8.1	Respondents Education Levels	68
4.8.2	Respondents Age	69
4.8.3	Respondents Firm	70
4.8.4	Respondent's Career Name	70

4.8.5	Respondent's Experience	71
4.8.6	Number of Project of the Respondents	72

## **Five**

### **Analysis and Discussion**

5.1	Introduction	73
5.2	Field Study	73
5.3	Safety Factors Analysis	73
5.3.1	Factors At Organization Level	74
5.3.1.1	Summary	85
5.3.2	Factors at Project Level	86
5.3.2.1	Summary of (Public Protection)	93
5.3.2.2	Summary of (Safe Access)	96
5.3.2.3	Summary of (Scaffolds)	99
5.3.2.4	Summary (Ladders and Stepladders)	100
5.3.2.5	Summary of (Power Access Equipment)	102
5.3.2.6	Summary of (Cranes and Lifting Appliances)	104
5.3.2.7	Summary of (Plant and Equipment)	106
5.3.2.8	Summary of (Site Traffic and Vehicles)	108
5.3.2.9	Summary of (Excavations)	111
5.3.2.10	Summary of (Fire and other Emergencies)	114
5.3.2.11	Summary of (Electricity)	117
5.3.2.12	Summary of (Hazardous Substances)	119
5.3.2.13	Summary of (Welfare Facilities)	122
5.3.2.14	Summary of (Noise)	123
5.3.2.15	Summary of (Personal Protective Equipment)	126
5.4	Summary Ranks of Factors Affecting Safety Performance	126

5.4.1	Ranking The Most 7 Effective Factors at Organization Level	127
5.4.2	Ranking the Factors at Project Level	127

## **Six**

### **Conclusions and Recommendations**

6.1	Introduction	128
6.2	Brief Summary	128
6.3	Conclusion	128
6.4	Recommendations	129
6.4.1	General Recommendations	129
6.4.2	Recommendations for Future Researches	131

### **References**

### **Appendices**

## **List of tables**

<b>Chapter</b>	<b>Title</b>	<b>Page</b>
2-1	Summary of Researches Relating to Safety (Jannadi. 2001)	37
4-1	The Reliability Statistics	64
4-2	The Correlation Statistics	64
4-3	Cronbach's Coefficient Alpha Statistics	65
4-4	The Validity Statistics	68
4-5	Respondents Education Levels	68
4-6	Respondents Ages	69
4-7	Respondents Firm	70
4-8	Respondent's Career Name	70
4-9	Respondent's Experience	71
4-10	Number of Project of the Respondents	72
5-1	The Direction of Respondents Towards Administrative Factors	74
5-2	The Direction of Respondents Towards Factors at Project Steps	86
5-3	Ranking the Factors	126
5-4	Most 7 Effective Factors at Organization Level	127
5-5	Ranking the Factors at Project Level	127

## **List of Figures**

<b>Chapter</b>	<b>Title</b>	<b>Page</b>
1-1	Flowchart of Research	6
2-1	Factors affecting safety performance	12
2-2	Construction Safety Management Framework	21
2-3	Flowchart of all Safety Factors	43
4-1	Respondents Education Levels	69
4-2	Respondents Ages	69
4-3	Respondents Firm	70
4-4	Respondent's Career Name	70
4-5	Respondent's Experience	71
4-6	Number of Project of the Respondents	72
5-1	The Upper Management Responsibility	75
5-2	Devoting Time to Discuss Safety Issues with Safety Coordinator	75
5-3	Informal Safety Inspections	76
5-4	Safety Meeting	76
5-5	Safety Training for Foremen and Safety Coordinator	77
5-6	Distributing safety booklets	77
5-7	Appointing a Trained Safety Representative	78
5-8	Safety Training for Workers	78
5-9	Punishments and Incentives	79
5-10	Allocating Special Places for Worker's to Smoke	79
5-11	Correcting Workers Unsafe Actions	80
5-12	Workers Compensation Insurance	80
5-13	Allocating Amount of Occupational Safety and Health Issues	81
5-14	Trained Safety Manager	81

5-15	Company Volume and its Effect on the Safety of Workers	82
5-16	The Existence of Department to Monitor the Occupational Safety and Health	82
5-17	Putting a Clear Plan for Safety	83
5-18	Putting Regard to the Safety Issues in the Tender	83
5-19	Discussing Safety Responsibilities with the Owner and Consultant	84
5-20	Asking Contractors to Develop a Safety Plan at the Tender Stage	84
5-21	Average of Scale A (Administrative Factors)	85
5-22	Fencing off the Working Area	90
5-23	Securing Site Entrances When Work Finishes	90
5-24	The Work Site Fence Perimeter is Intact and Functional	91
5-25	Covering Flooded Areas, Excavations and Openings and Protect them with Barriers	91
5-26	Making Sure that all Site Plant and Remaining Vehicles are Immobilized after the Work Finish	92
5-27	Securing the Access to Scaffolding	92
5-28	Securing all Piled and Stacked Materials	93
5-29	Average for (Public Protection)	93
5-30	All Structures that Being Worked on are Stable, Safe and not Overloaded	94
5-31	Keeping the Site Tidy and Meeting an Acceptable Standard of Housekeeping	94
5-32	Collecting and Disposing of Waste Regularly	95
5-33	Adequate Lighting in Main and Common Areas	95
5-34	Average of (Safe Access)	96
5-35	Scaffolds are Erected and Altered by Competent Persons and the Safe Access Available to Platform Levels	96
5-36	Scaffolds are Inspected at Least Weekly by a Competent Person	97

5-37	All Scaffold Bracing and Support Members in Place	97
5-38	All Scaffolds Appropriately Braced or Secured to Structure Appropriately to Prevent Collapse	98
5-39	Stored Materials Evenly Distributed on the Scaffold Platforms and not Excessive	98
5-40	Average of (Scaffolds)	99
5-41	The Ladders Checked for Defects Before Use	99
5-42	Securing the Ladders Before Use to Prevent Slipping	100
5-43	Average of (Ladders and Stepladders)	100
5-44	The Equipment Properly Erected by Competent Person	101
5-45	Training the Operators of the Machinery and Equipment	101
5-46	Forcing Workers to Wear Protective Helmet	102
5-47	Average of (Power Access Equipment)	102
5-48	All Cranes Operators been Specifically Instructed in the Identification of Weight and Center of Gravity Before Lifting a Load	103
5-49	All Crane Operator usually Aware of Crane Design Loads	103
5-50	All Slings or Banksmen been Specifically Instructed in the Identification of Weight and Center of Gravity Before Lifting a Load	104
5-51	Average (Cranes and Lifting Appliances)	104
5-52	Plants and Equipment Being Used Appropriately	105
5-53	Plants and Equipment in Good Repair	105
5-54	Maintenance Log Maintained to Record any Defect	106
5-55	Average (Plant and Equipment)	106
5-56	Putting Site Traffic Plan to Identify Separate Workflow Pedestrian and Vehicle Routes	107
5-57	Ensure that the Vehicles Properly Loaded, with Protection Against Falling Loads	107
5-58	Specifying Speed Limits for the Vehicle Drivers within the Site	108

5-59	Average of (Site Traffic and Vehicles)	108
5-60	Safe Access by Ladders are Provided to all Excavations	109
5-61	Excavations Protected to Prevent People, Materials or Vehicles Falling	109
5-62	Protect Nearby Structures from being Affected by an Excavation	110
5-63	Inspecting all Excavations by a Competent Person before each Shift	110
5-64	Leaving 1m of Clear Space at the Edges of all Excavations	111
5-65	Average of (Excavations)	111
5-66	Putting a Site Emergency Plan	112
5-67	Appropriate Means of Raising the Alarm in Case of Fire	112
5-68	Appropriate Numbers of Fire Extinguishers Present and Marked	113
5-69	Arrangements to Remove Waste Regularly	113
5-70	Effective Smoking Ban where Flammable Materials are Stored	114
5-71	Average of (Fire and other Emergencies)	114
5-72	Appropriate Precautions in Place to Guard Against Striking Underground services	115
7-73	All Temporary Circuits Fitted with Residual Current Devices	115
7-74	All Cables and Leads Protected from Damages	116
7-75	The Temporary Electrical Supply System is Checked by a Competent Person	116
7-76	All Electrical Tools and Equipment Subject to Document Examination and Testing Regime	117
7-77	Average of (Electricity)	117
7-78	Identifying all Hazardous Substances and Assessing their Potential Risks	118
7-79	Appropriate Precautions in Storage Areas of Hazardous Materials include Signs, Limitations on Access and Use of Protective Clothing and Equipment	118
7-80	Average of (Hazardous Substances)	119

7-81	The Company is Providing all Possible Social Care Facilities for all Workers	119
7-82	Offering Special Areas to Allow Workers to Rest and to Prepare their Food at the Break	120
7-83	Providing Small Toilets for Workers in Workplaces	120
7-84	Providing an Adequate Supply of Drinking Water for the Workers	121
7-85	Making an Adequate Assessment for the First Aid Requirements	121
7-86	Average of (Welfare Facilities)	122
7-87	Develop a Plan of Work to Reduce the Noise Inside and Outside Locations	122
7-88	Providing Ear Protection Headphones for each Worker in the Areas of Noise	123
7-89	Average of (Noise)	123
7-90	Defining Appropriate Personal Protective Equipment Depending on the Nature of the Work and Provided them to Workers	124
7-91	Making Checks for all Personal Protective Equipment	125
7-92	Making Arrangements for Replacement of Worn or Lost Equipment	125
7-93	Average for (Personal Protective Equipment)	126

## List of Appendices

<b>Appendix no.</b>	<b>Title</b>
1	English Questionnaire
2	Arabic Questionnaire
3	The correlation matrix for item analysis
4	Safety Plan for the case study
