College of Postgraduate Studies

Questionnaire

***In vitro* evaluation of antimicrobials used for
Pseudomonas aeruginosa isolated from clinical specimens**

Study for MSc. Degree

(A) General information :

- 1- Code – Number
- 2- Hospital
- 3- Age
- 4- Sex
- 5- Site of specimen

(B) Colonal morphology :

- | | | | | | | |
|-------------------|--------------------------|-------|--------------------------|--------------------------|--------------------------|-------|
| 1- Colony | ☐ | Large | ☐ | Moderate | ☐ | Small |
| 2- Green pigment | ☐ | | Yes | ☐ | | No |
| 3- Other pigments | ☐ | | Yes | ☐ | | No |
| 4- Haemolysis. | ☐ | | Yes | ☐ | | No |

(C) Antimicrobials evaluation

- 1- Sensitive to
- 2- Resistant to
- 3- Intermediate
