ايه قرانيه.....	I
Dedication.....	II
Acknowledgement.....	III
Abstract.....	IV
المستخلص.....	V
Table Of Contents	VI
Chapter one Geographic Information System	1
1.1 Introduction.....	1
1.2 ELEMENTS OF GEOGRAPHIC KNOWLEDGE.....	2
1.3 GIS FUNCTIONS.....	2
1.3.1 Data Input.....	2
1.3.2 Data Management.....	3
1.3.3 Data Manipulation and Analysis.....	4
1.3.4 Data Output.....	4
1.4 GIS PROJECT PLANNING.....	5
1.4.1 Conception:.....	5
1.4.2 Design.....	5
1.4.3 Implementation.....	5
1.4.4 Operation and Maintenance.....	5
1.5 Brief History of GIS.....	6
1.6 COMPONTENS OF GIS.....	7
1.6.1 Hardware.....	8
1.6.2 Software.....	9
1.6.3 Data.....	9
1.6.4 People.....	14
1.6.5 Methods.....	14
Chapter two-Ark GIS Desktop	15
2.1 Introduction.....	15
2.2 Arc GIS Desktop.....	15
2.2.1 Mapping and visualization with Arc Map.....	16
2.2.2 Data management with Arc catalog.....	19
2.2.3 Editing and data compilation.....	21
2.2.4 The geo database.....	23
2.2.5 GIS Servers and services.....	23
2.3 Core Arc Map toolbars.....	24
2.4 Querying data.....	24
2.4.1 Identifying selecting finding and hyper linking features.....	25
2.4.2 Selecting features by attribute.....	26
2.4.3 Selecting features by location.....	26
2.4.4 Joining the attributes from a table.....	27
2.4.5 Buffer.....	29
2.4.6 Reports and Graphs.....	31
Chapter three-Electrical distribution network using GIS	33
3.1 INTRODUCTION.....	33
3.2 The role of GIS in Distribution Networks.....	34
3.3 Aim and objectives.....	35
3.4 Benefits of using GIS in distribution network management.....	35
3.5 Optimizations of distribution networks in GIS.....	36
3.6 Optimization of the net primary system.....	37
3.7 Load forecasting 0.415Kv.....	38
3.8 Analysis and Results.....	40

3.8.1	Voltage Drop Analysis.....	40
3.8.2	Power loss Analysis.....	41
3.8.3	Switching Analysis.....	41
3.8.4	Power loss Analysis over Distribution system.....	42
3.8.5	load Flow Analysis.....	42
3.8.6	Circuitry switching.....	42
3.8.7	short Circuit Analysis for Medium and High voltage Distribution system	42
3.8.8	Voltage Drop Analysis Low voltage.....	43
3.8.9	Power loss Analysis low voltage.....	43
3.8.1	Switching Analysis low	43
0	Voltage.....	
	Chapter Four-Codification	44
4.1	Introduction.....	44
4.2	Over view of geo coding.....	44
4.3	Benefits of codification.....	46
4.4	Design of Codification.....	47
4.5	Coding regions.....	48
4.6	Coding of cities.....	49
4.7	Voltage level color.....	52
4.8	Coding of the main substation and its components.....	52
4.9	Power Transformer 33/11K V.....	57
4.10	Incoming feeder.....	57
4.11	Out going Feeder.....	57
4.12	Poles.....	58
4.13	T. off poles.....	59
4.14	Cable.....	61
4.15	Transformer (11/0.415) kV.....	61
4.16	Outgoing (0.415) kV.....	62
4.17	Poles 0. 415kV.....	63
4.18	Cables0.415kV	63
4.19	Customer.....	64
4.20	Designing tables in the geo database.....	64
4.21	Steps of work.....	66
4.22	The study Area.....	68
4.22.1	Transformer attribute table.....	69
4.22.2	Low tension poles attributes.....	69
4.22.3	High tension poles	69
4.22.4	The main Substation.....	70
4.22.5	Low tension cable.....	70
4.22.6	High tension cables.....	71
4.22.7	Line 415v	72
4.22.8	Line 11K.V	73
4.22.9	Streets.....	74
4.22.10	Parcel.....	75
4.22.11	Customer.....	76
	Chapter five-Conclusions and Recommendations	78
5.1	Conclusions.....	78
5.2	Recommendation.....	79
	References.....	80
