

LIST OF FIGURES

Number	Title	Page
Figure (2.1)	Two dimensions Cartesian co-ordinates system	6
Figure (2.2)	Three dimensions Cartesian co-ordinates system	7
Figure (2.3)	Two dimensions polar co-ordinates system	9
Figure (2.4)	Representing the co-ordinates in the polar system	10
Figure (2.5)	Three dimensions polar co-ordinates system	11
Figure (2.6)	Degree of longitude shrinks towards poles	14
Figure (2.7)	Parallel latitudes	15
Figure (2.8)	The longitudes	17
Figure (3.1)	The earth	25
Figure (3.2)	The ellipsoid	27
Figure (3.3)	The normal and vertical	28
Figure (3.4)	Orthometric and ellipsoidal height	28
Figure (3.5)	The geoid-ellipsoid separation	29
Figure (4.1)	Azimuthal projection	33
Figure (4.2)	Projection lines of Gnomonic, Stereographic, and Orthographic	33
Figure (4.3)	Gnomonic, Stereographic, and Orthographic	34
Figure (4.4)	Conical projection	35
Figure (4.5)	The simple conic projection	36
Figure (4.6)	The conical with two standard parallels	37
Figure (4.7)	Cylindrical Projection	38

Figure (4.8)	UTM zones and bands	44
Figure (5.1)	Locations of reference points in Sudan	50
Figure (5.2)	The distance from center meridian to another	53
Figure (5.3)	E vs. δE	55
Figure (5.4)	E vs. δN	55
Figure (5.5)	E vs. $\delta Linear$	56
Figure (5.6)	N vs. δE	56
Figure (5.7)	N vs. δN	57
Figure (5.8)	N vs. $\delta Linear$	57
Figure (5.9)	Contour map representing the differences in the whole country	58
Figure (5.10)	3D map representing the differences in the whole country ..	59
Figure (5.11)	E vs. δE in latitude 0	69
Figure (5.12)	E vs. δN in latitude 0	70
Figure (5.13)	E vs. $\delta Linear$ in latitude 0	70
Figure (5.14)	N vs. δE in latitude 0	71
Figure (5.15)	N vs. δN in latitude 0	71
Figure (5.16)	N vs. $\delta Linear$ in latitude 0	72
Figure (5.17)	E vs. δE in latitude 5	72
Figure (5.18)	E vs. δN in latitude 5	73
Figure (5.19)	E vs. $\delta Linear$ in latitude 5	73
Figure (5.20)	N vs. δE in latitude 5	74
Figure (5.21)	N vs. δN in latitude 5	74
Figure (5.22)	N vs. $\delta Linear$ in latitude 5	75
Figure (5.23)	E vs. δE in latitude 10	75
Figure (5.24)	E vs. δN in latitude 10	76

Figure (5.25)	E vs. δ Linear in latitude 10	76
Figure (5.26)	N vs. δ E in latitude 10	77
Figure (5.27)	N vs. δ N in latitude 10	77
Figure (5.28)	N vs. δ Linear in latitude 10	78
Figure (5.29)	E vs. δ E in latitude 15	78
Figure (5.30)	E vs. δ N in latitude 15	79
Figure (5.31)	E vs. δ Linear in latitude 15	79
Figure (5.32)	N vs. δ E in latitude 15	80
Figure (5.33)	N vs. δ N in latitude 15	80
Figure (5.34)	N vs. δ Linear in latitude 15	81
Figure (5.35)	E vs. δ E in latitude 20	81
Figure (5.36)	E vs. δ N in latitude 20	82
Figure (5.37)	E vs. δ Linear in latitude 20	82
Figure (5.38)	N vs. δ E in latitude 20	83
Figure (5.39)	N vs. δ N in latitude 20	83
Figure (5.40)	N vs. δ Linear in latitude 20	84
Figure (5.41)	E vs. δ E in latitude 25	84
Figure (5.42)	E vs. δ N in latitude 25	85
Figure (5.43)	E vs. δ Linear in latitude 25	85
Figure (5.44)	N vs. δ E in latitude 25	86
Figure (5.45)	N vs. δ N in latitude 25	86
Figure (5.46)	N vs. δ Linear in latitude 25	87
Figure (5.47)	Contour map of linear differences in zone-36	88
Figure (5.48)	3D map of linear differences in zone-36	89
