

LIST OF FIGURES

Figure	Page
2.1 Schematic Diagram of Typical Neural or Nerve Cells.....	5
2.2 Basic Artificial Neuron	5
2.3 Artificial Neurons Grouped into Layers	6
2.4 Mc Culloch – Pitts Models of Neuron	7
2.5 Rosenblatt's Preceptor Model of Neuron	8
2.6 Simple Feedforward Network.	12
2.7 Simple Feedback Network.	13
3.1 Graphical Representation of Continues Time and Time-discreet Signals.	15
3.2 Examples of Even and Odd Signals.	16
3.3 Example of Signals.	17
3.4 Unit Impulse Function.	19
3.5 Complex Exponential Signals	20
3.6 Continues-time Sinusoidal Signals	20
3.7 System with Signal or Multiple Input and Output Signals.....	21
3.8 Continues-time and Discreet-time Systems.....	22
3.9 Feedback System.	24
4.1 Signal Generators with Oscilloscope	30
4.2 Inputs / Outputs Definitions.....	29
4.3 Test Extractor Data	30
4.4 Slabs (Layers) of GRNN.	30
4.5 Learning Session Parameters.	31
4.6 Applying Session Parameter for Data Included Training Session.....	32
4.7 Applying Session Parameters for New Data.	33
5.1 Training Session Set One	40
5.2 Training Session Set Two	40
5.3 New Session Set One	47
5.4 New Session Set Two	47

LIST OF TABLES

Table	Page
4.1 Specifications of the Test Data.....	26
4.2 Specifications of the Hardware Used in the Test	27
5.1 Training Session Results.....	35
5.2 Applying Session Results.....	42

ABBREVIATIONS

AI	Artificial Intelligence
ANNs	Artificial Neural Networks
BPN	Back Propagation Neural
GRNN	General Regression Neural Networks
PNN	Probabilistic Neural Networks
PC	Personal Computer
OS	Operation System
BIOS	Basic Input Output System
TDM	Time Division Multiple
FDM	Frequency Division Multiple
