

List of Figures

Figure 2.1:	Explains BIM Concept	7
Figure 2.2:	lifecycle of a building using BIM.....	8
Figure 2.3:	Collaboration between different engineers using BIM.....	11
Figure 2.4:	Percentage of task used by BIM	14
Figure 2.5:	BIM application in project life-cycle.....	16
Figure 2.6:	Clash detection during design phase.....	25
Figure 2.7:	4D process from Autodesk Naviesworks Manages	26
Figure 2.7:	Percentages of market share of BIM tools used firms	29
Figure 4.1:	The Respondents profile	46
Figure 4.2:	The personal years of respondents	47
Figure 4.3:	The response implementing BIM `	48
Figure 4.4:	The percentage of respondents who defined BIM Concept	48
Figure 4.5:	Different type of architectural Software used by respondents	49
Figure 4.6:	Different type of Structural Software used by respondents.....	50
Figure 4.7:	Different type of Construction Project Software used	51
Figure 4.8:	How to create 4D model.....	52
Figure 4.9:	BIM Function	52
Figure 4.10:	The percentage of the respondents' adoption for BIM	53
Figure 4.11:	The percentage of respondents who are planning use BIM	53
Figure 4.12:	The barriers of Implementing BIM.....	53
Figure 4.13:	Reasons that encourage on BIM uses.....	55

List of Tables

Table 2.1:	BIM applications in project design phase.....	13
Table 2.2:	BIM applications for project stakeholders	18
Table 2.3:	BIM Tools.....	29
Table 2.4:	BIM Construction Management and Scheduling Tools	31
Table 2.5:	LOD definitions in different project phases	37
Table 2.6:	Building Information Modeling BIM Cost.....	42
Table 4.1:	Shows percentage of respondents	46
