| Table of contents | I |
| Acknowledgement | III |
| Abstract | IV |
| ملخص الدراسة | V |
| List of Tables | VI |
| List of figures | VIII |
| List of Abbreviations (symbols) | X |
| <i>Chapter One : Introduction</i> | 1 |
| 1.1 General | 1 |
| 1.2 Importance of the research | 1 |
| 1.3 Research Objectives | 1 |
| 1.4 Research Questions and Hypotheses | 2 |
| 1.5 Research Methodology | 2 |
| 1.6 Outline of the research | 3 |
| <i>Chapter Two : Literature review</i> | 4 |
| 2.1 Introduction | 4 |
| 2.2 Expected Service Life of Structures | 5 |
| 2.3 factors for durability of concrete for during design / construction stages | 5 |
| 2.4 Causes of Early Deterioration of Concrete Structures | 8 |
| 2.5 Corrosion of reinforcement | 14 |
| 2.6 Repair strategies | 25 |
| 2.7 Effect of Cracking on the Life or Durability of Structure | 33 |
| 2.8 Design & Detailing For Durability | 33 |
| 2.9 Design Crack Width Calculation | 42 |
| 2.10 Previous studies | 44 |

| | |
|---|----|
| <i>Chapter Three : The Problem Statements</i> | 48 |
| 3.1 Introduction | 48 |
| 3.2 Structure input data | 48 |
| 3.3 Analysis output results | 56 |
| <i>Chapter Four : Results and Discussion of Results</i> | 60 |
| 4.1 Forwarding | 60 |
| 4.2 Design results for load cases | 62 |
| 4.3 Discussion | 70 |
| <i>Chapter Five : Conclusions and recommendations</i> | 73 |
| 5.1 Conclusions | 73 |
| 5.2 Recommendations | 75 |
| 5.3 Suggestions for Future Research | 76 |
